PREMIUM GRASS SEED BLEND

Our Highest Quality Seed

All Pennington premium grass seed is pure-bred, drought tolerant and guaranteed to grow the thick and healthy grass you want.

Restores Naturally

Pennington premium grass seed with MYCO Advantage™ replenishes beneficial micro-organisms which help grass grow deep, dense roots - the way nature intended.

Protects Seeds

Pennington's Penkote® protects the seed from deadly fungus to give it a better chance to grow. We've also taken the extra step to coat this smaller, fine seed which makes it easier for you to spread and helps hold it in place to grow.

You Have Our Word

We're Pennington, The grass seed people. Cultivating your trust for three generations by providing the finest grass seed you can buy.

THIS PACKAGE COVERS	5,000 sq. ft.	10,000 sq. ft.

Planting Depth: ¼"
Seedling Emergence: 7-21 Days
Light Required: Full Sun
Traffic Tolerance: Excellent
Drought Tolerance: Excellent
Recommended Mowing Height: 1-1½"

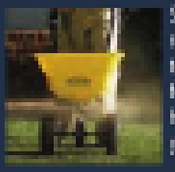
3 Simple Steps

1. PREPARE

BARE SPOTS/NEW GRASS: Remove debris, then rake the soil to loosen and smooth the top layer.

OVERSEEDING/THIN AREAS: Same instructions as above but start by mowing existing grass as short as possible.

2. APPLY



Spread the seed evenly using a drop, rotary or hand-held spreader according to the settings below. Lay down a starter fertilizer to help the seedlings grow healthy and strong. Rake gently to work your seed & fertilizer into the soil.

3. WATER (Most Important Step)

Keep the soil moist! Water daily (twice a day if you have kids) until grass sprouts and reaches about 1-1½" tall.

ADDITIONAL CARE TIPS

- Once your grass is 1/3 taller than the recommended mowing height you may begin mowing it.
- Avoid removing more than 1/3 of the total grass blade length at any single mowing to keep your grass thick and healthy.
- Increase your mowing height in summer months to reduce grass stress.

IMPORTANT: Applying weed control products to grass prior to seeding can affect the seeds' ability to grow. Be sure to read and follow all manufacturer's recommendations and application instructions prior to applying any weed control products and prior to seeding. Additionally, do not apply any weed control products to newly seeded areas until the grass is established and has been mowed at least 3 or 4 times. Once newly seeded areas are established, you can begin a regular feeding schedule.
